

Pharmacy First

Do you sometimes need treatment, but don't want to wait to see the doctor?

Well now you don't have to!

- If you are exempt from prescription charges local pharmacists are now able to provide you with the medicines to treat these conditions and they will be free.
- If you are not exempt from prescription charges you will be able to use the scheme, but you will have to pay a prescription charge to the pharmacist in the usual way (or buy the medicines if they are cheaper than the prescription charge).
- All you need to do is register once with the reception staff at your GP surgery, who will give you a special voucher. Take the voucher to your local participating pharmacy to receive treatment, without waiting for an appointment.
